# Assignment 2

278

2023 Fall

Structure of the code submitted:

How to run the code:

in the terminal for the folder, use the following command to start the rack application.

```
bundle exec rackup config.ru -p 9595
```

```
C:\Users\venka\Documents\railsprojects>cd ass2

C:\Users\venka\Documents\railsprojects\ass2>bundle exec rackup config.ru -p 9292
[2023-10-27 14:12:27] INFO  WEBrick 1.8.1
[2023-10-27 14:12:27] INFO  ruby 3.2.2 (2023-03-30) [x64-mingw-ucrt]
[2023-10-27 14:12:27] INFO  WEBrick::HTTPServer#start: pid=5664 port=9292
```

Now this can be accessed using the browser at port 9292 as requested in the assignment.

Screenshots of the results:
